

Dish Soap

A soap on a mission

The **Soaptivist** is the most basic soap we make. It's 100% organic olive oil and nothing else. When you change your cleaning habits to include bar soap you shift your mindset around natural sustainability. This is health and environmental activism through the choice to clean with non-toxic, plastic free, minimally packaged bar soap!

How to use:

Dishes: Rub sponge or cloth directly on the Soaptivist bar, scrub dishes and rinse.

Surfaces: Rub the Soaptivist directly onto the wet surface, scrub with sponge or cloth. Rinse surface with clean, wet sponge or cloth. Dry as needed with clean, dry cloth.
